The Opioid Problem

Coordination and alignment will be key to success.

Settlements will provide much needed funding.

Laws, regulations, policies and programs are helping.

Problems range from supply side (pill mills to cartels), to demand side, to prevention, treatment, and recovery.

Pharmaceutical opioids are most common starting point.

Nearly 50,000 deaths due to opioid overdose in 2017.
The Colorado Experience

State-Level Stewardship
A Comprehensive Response:

- Stressed: Interagency cooperation, private sector innovation
  - 670 L.E.A. reversals reported (2018-19)
  - Over 200,000 units of naloxone distributed
  - 200 L.E.A.'s (of 224) carrying naloxone

American/AmeriCorp/VISTA programs, held Law Enforcement Summits
